

Our Core Values

Biblically **Distinct**

Engaging Academics

Intentionally **Inviting**

Culturally **Transforming**

Biblically **Distinct** – Our Knights Armor and our Mission Statement drive our curriculum. What does it mean to be a creation caretaker?

Engaging academics are another core value we strive towards. Education that is engaging tests to see learning is taking place. It is authentic, real world, technology infused, personally connecting. Our 1:1 program, coupled with our hybrid block schedule has helped us provide a setting for engagement in and out of the classroom.

Intentionally **Inviting**. Unity is a place where students and parents feel safe and welcome. Unity is also a school that is intentional about engaging our local community, as evidenced by our shared facilities and strong relationship with local school districts. Unity also seeks to be an inviting community to international students.

A place of cultural **transformation**. At Unity we challenge our staff and students to become like Jesus Christ in thought, word and deed. We do not prepare students to serve and be Christ-like in the future. We challenge students to transform their world for Christ now!
